Gabriel **LIMA**

FULL STACK WEB & AI ENGINEER

Senior Full Stack Developer with a strong background in AI and over 10 years of experience in developing scalable web applications. Proficient in both frontend and backend technologies with a keen interest in data science and DevOps. Proven track record of delivering successful projects across diverse industries. Seeking new opportunities to leverage skills in a dynamic team environment.

Work experience

AI Developer (Contract - Remote) — From February 2024 to March 2025
NovaAI Tools, San Francisco, CA

NovaAI Tools is a U.S.-based startup providing AI-powered workflow automation tools
Achievements/Tasks
- Developed AI-based tools including document summarizers, chatbots, and RAG-powered search using OpenAI + LangChain + Pinecone.
- Automated support workflows, cutting human involvement by 45%.
- Built a full-stack MVP with React and Node.js in under two months.
- Collaborated across global teams using GitHub, Docker, and Slack for remote development.

Full Stack Developer – SaaS Platform (Remote) — From March 2023 to January 2024
NeuroEdge Solutions, Berlin, Germany

NeuroEdge Solutions builds productivity software that integrates AI assistants to enhance performance for enterprise and remote teams.
Achievements/Tasks
- Led development of a GPT-4 integrated productivity dashboard.
- Built secure, scalable backend with Node.js and Express; frontend with React and Tailwind CSS.
- Managed AWS deployments with Docker, CI/CD, and GitHub Actions.
- Reduced frontend load time by 40% through lazy loading and code optimization.

Full Stack Engineer with AI — From August 2022 to January 2024
SFL Ecommerce, Forth Worth, TX (Remote)

SFL Ecommerce is a digital commerce platform offering AI-driven retail experiences to U.S. and international clients.
Achievements/Tasks
- Integrated Python-based AI models to enhance personalization and inventory prediction.
- Collaborated on frontend/backend development to boost user experience and system performance.
- Led system architecture improvements and analytics dashboard integrations using PowerBI.

Full Stack Developer — From February 2021 to June 2022
Fox Solutions, São Paulo, Brazil

Fox Solutions is a tech consultancy specializing in building scalable digital products for fintech and logistics companies.
Achievements/Tasks
- Delivered several MERN-stack applications across web and mobile platforms.
- Improved backend architecture and increased DB query efficiency by 30%.
- Guided cloud migration using AWS EC2 and RDS, improving uptime and scalability.

Frontend Developer — From January 2019 to March 2020
F5 Web Design e Tecnologia Atualizada, São Paulo, Brazil

F5 Web Design is a boutique digital agency focused on responsive websites and modern UI/UX for Brazilian startups.
Achievements/Tasks
- Created modern UIs using React.js and Vue.js for client web apps.
- Worked closely with backend teams to ensure seamless integration via REST APIs.
- Helped launch 10+ websites that led to a 20% increase in client retention.

Assets

Core Strengths
- Strong analytical thinking
- Excellent time management
- Fast learner and adaptive
- Reliable remote work discipline

Assets
- Self-motivated and independent worker
- Cross-cultural teamwork experience

Education

Bachelor of Computer Engineering   From 2014 to 2018
Universidade Federal de Recife, Recife, Brazil
- Software Engineering Principles (Full Stack Development)
- Algorithms and Data Structures
- Artificial Intelligence and Machine Learning Fundamentals
- Web Development (HTML5, CSS3, JavaScript, PHP)
- Database Management (MySQL, PostgreSQL)
- Cloud Computing Basics (AWS and DevOps Concepts)
- Data Analysis and Visualization (PowerBI, Python)
- API Development and Integration

Professional Diploma in Artificial Intelligence Development   From 2020 to 2021
Alura Tech School (Remote), São Paulo, Brazil
- Natural Language Processing with Python
- Machine Learning Model Design (Scikit-learn, TensorFlow)
- AI-Powered Chatbot Development
- Data Scraping and Automation with Python
- Deep Learning for Computer Vision and Recommendation Systems
- AI Deployment in Full Stack Web Apps (React.js + FastAPI)

Skills

Full Stack Development
- **Languages & Frameworks:** JavaScript (Node.js, React.js, Vue.js), Python, PHP, Laravel, Rust, Ruby on Rails
- **Stacks:** MERN (MongoDB, Express, React, Node), MEVN (Vue), LAMP
- **Databases:** MongoDB, MySQL, PostgreSQL, Firebase
- **DevOps:** Git, Docker, CI/CD pipelines, Nginx, Ubuntu, AWS (EC2, S3, Lambda)

AI / Machine Learning
- **LLM Integration:** OpenAI GPT-4, LangChain, Retrieval-Augmented Generation (RAG), GPT Models, Whisper, Question-Answer Systems
- **Computer Vision & Deep Learning:** CNNs, RNNs, Transformers, YOLO, OpenCV, Image Segmentation
- **Vector DBs:** Pinecone, Weaviate
- **AI Tools:** Chatbots, Document QA, Auto Summarization, Web Scraping Bots
- **Model Deployment & Scaling:** Model Deployment, Optimization, Auto-Scaling
- **Data Science:** Pandas, PowerBI, Data Visualization, ETL Pipelines

Tools
N8N, Make.com, VSCode, Slack, Jira, Notion, Postman, Agile/Scrum

Additional Skills

- RESTful API Design, Agile/Scrum, OAuth & JWT Auth, Responsive Design, Tailwind CSS, WebSockets, Automation with Selenium & BeautifulSoup
